Legendary Army Ten-Miler Set for Registration

Priority Registration opens today, and General Registration opens May 15 for the Army's 35th Annual Race to be held Oct. 13 in Washington, D.C.

WASHINGTON – The **Army Ten-Miler** is set to open two official registration sessions: today for priority registration and May 15 general registration. The Army's 35th Annual Race takes place on Sunday, Oct. 13 at 8 a.m. EDT in Washington, D.C. and will cap at 35,000 participants. Runners are encouraged to register early as the race will sell out.

Priority Registration– which opens today at 7 a.m., EDT– is open to ATM Priority Club members (runners who have finished seven or more ATM races), and to active duty military, National Guard and Reserve. U.S. service members must use a “.mil” address to register. A [searchable database](#) is available on the ATM website for seven-time or more ATM finishers to confirm their ATM Priority Club status.

General registration opens at 7 a.m., EDT May 15. This registration session is for the general public. Individuals must be at least 15 years old on race day to enter.

Individual registration is \$79 and includes the official, long-sleeve technical race shirt. Runners may also purchase tickets for the Pasta Dinner for \$33. Additional processing fees apply. MarathonGuide.com returns as the ATM registration provider.

More than 600 military and civilian teams were among the 35,000 runners from all 50 U.S. states, the District of Columbia and 20 countries that competed in last year's ATM, which is recognized as one of the nation's premier running events. The race was supported by nearly 2,000 volunteers. In addition, official ATM Shadow Runs were held at 11 overseas military installations.

U.S. Army Spcs. Frankline Tonui and Susan Tanui were the First Overall Male and Female finishers at the 34th annual Army Ten-Miler last October, with Spc. Tanui successfully defending her title as the top female finisher. Spc. Tonui led the All-Army Team that captured its fifth straight International Cup and swept the top three overall spots in the race. The top team finishers were also part of the U.S. Army World Class Athlete Program.
